POLAR DIAGRAM

SOL RACE RECORD

Formula 18 catamarans are fast, colourful catamarans with spinnakers.

Formula 18 are two-person catamarans built around a box-rule that has given many different designs. Many will know of the Hobie Tiger, the Hobie Wildcat and the Nacra Infusion (in the picture), which is the model for SOL's F18 polar.

The F18 has a top speed of more than 20 knots (about 50 km/h). It goes without saying that it is a screaming experience and an exciting challenge.

SOL's F18 debuted in the annual Dutch festival of multihull racing, the Round Texel Race of 2011, and she has seen frequent action ever since (check the link to the racelist below).
